Re NRO/JRC agreement

Queried what purpose of agreement was--to correct what? to do what that isn't already being done? etc.

If it is desired to have NRO execute, supervise, guide, and control those specific denied area overflts now being conducted by JRC (Cuba and China Mainland) and to include in the agreement that NRO shall effect transfer of certain overflts during periods of hostilities to the military, attaches a draft proposed agreement which he thinks will clearly put these two factors in proper perspective.
